

Jacob Matthew Tang

Product & Operations Generalist

Tamuning, GU · (626) 886-0524 · jacobmtang@yahoo.com · jacobtang.com

Profile

Domain explorer who learns by shipping, striving to collaborate with and learn from fellow builders. Leverages AI tools to move across engineering, product design, and go-to-market, owning work end to end. Sets up AI-ready documentation and systems that make recurring operations faster and cleaner. Business economics background with a track record of turning messy inputs into clear, decision-ready deliverables.

Experience

Founder — Maureen Care

May 2026 — Present

- Founded Maureen Care, a freemium therapeutic iOS app for binge eating, owning product strategy, UX/UI, engineering, and launch
- Built the app in React Native and Expo with a Supabase backend, and shipped it to the App Store
- Created a comprehensive design library and color token system, following Apple's Human Interface Guidelines and patterns benchmarked on Mobbin
- Built the Webflow marketing site (maureen.care) with a CMS article library optimized for SEO and AEO
- Created marketing collateral, including app mockups and promotional graphics for the website and social channels

Director, Marketing & Community Outreach — Latte Commons

July 2026 — Present

- Lead pre-launch marketing and outreach for a new civic venue in Tamuning, Guam (morning flea market, event hosting, restaurant catering) ahead of its November grand opening
- Built the venue's digital operations from scratch: Webflow site and CMS (lattecommons.org), vendor and partner application flows through forms and Google Workspace
- Managed brand assets, including vectorized logo files in Illustrator and reusable email templates
- Use AI tools to draft partner outreach and to prototype site updates quickly through Webflow's MCP integration

Operations & Project Associate — Kawabata International

June 2025 — Present

- Prepared policy summaries and timelines for Blue Water Realty on a large-scale expedited Navy housing RFP, clarifying compliance criteria and investment considerations
- Developed a pitch deck for the Waypoint events venue, defining target segments and partnerships, with 3D renders
- Created an FF&E booklet for a new Ajisen Ramen location, sourcing kitchen equipment to floor plan specs and labeling placements on the plan for the contractor
- Drafted a fact sheet and campaign assets for the Guam International Country Club bill to convert a golf course into a solar farm
- Structured recurring operations into Markdown docs using the Diátaxis framework so AI tools handle them cleanly, including monthly Guam GRT tax filings and tenant rent receipts

Creative Projects

TikTok Content Creator — @jaecub

- Produced short-form videos surpassing 12 million total views

Video Editing — Curated Creative Playlist

- Applied creative editing, motion design, and animation techniques across a range of student video projects
